WHY YOU NEED A DJ..?

- In Simple Terms, a DJ Plays Music. He Does Not Create Music Himself Or Perform As a Musician. Instead, He Uses Pre-Recorded Music From Other Musicians, Usually Drawing From a Large Collection Of Available Songs That Suit The Theme Of The Event Or Venue He's Working At.
- In Reality, Being a DJ Is a Bit More Complex Than This Definition Would Make It Appear. It May Seem That The Job Of a DJ Could Be Easily Replaced By a Music Playlist, But There Are a Few Things a DJ Can Do That No Canned Music Can Accomplish.
- A DJ Can Mix Songs And Create Musical Transitions. This Allows The Intro And Outro Of Various Songs To Lead Smoothly Into One Another, Allowing Music To Flow Easily And Without Any Startling Disruptions That Might Dampen The Mood Or Be Distracting For The Crowd.
